PARTIAL ISA

- #### FLEXIBLE THAN LOAN

ISAs have more flexible terms of repayment than a loan. The payments only start when you start earning.

- #### MANAGEABLE PAYMENTS

As payments are indexed on income, they adjust as per the changes in your earned income, making the repayment manageable.

- #### INCLUDES A PAYMENT CAP

After reaching the payment cap, ISA automatically terminates.

PAYMENT CAP \$30K

- #### MINIMUM THRESHOLD

Payment initiates only if you are earning more than the minimum threshold of \$65k. If you make lower than \$65k or lose your job, payments are suspended or automatically waived off.

- #### PAYMENT WINDOW

The ISA terminates automatically at the end of the payment window even if you've not made the required payments.
