

RIVERBEND INSURANCE

# WHAT DOES GENERAL LIABILITY INSURANCE COVER FOR MANUFACTURING BUSINESSES?

If you run a manufacturing business, general liability insurance can protect your business from common risks, including third-party property damage, bodily injury, and advertising injury. General liability covers the following scenarios:

## CUSTOMER PROPERTY DAMAGE

If a third party's property is damaged due to an incident in your facility, your policy can cover replacement or repair costs.

## CUSTOMER INJURIES

If a third party, say a delivery person or distributor, is injured in a slip and fall accident while on your premises, you may be held liable for the injury.

## PRODUCT LIABILITY

As businesses and people consume and interact with your products, there is a chance that your products may harm someone.

## ADVERTISING INJURIES

If a third party, say a delivery person or distributor, is injured in a slip and fall accident while on your premises, you may be held liable for the injury.

## OTHER IMPORTANT POLICIES FOR MANUFACTURING BUSINESSES

- Workers' Compensation Insurance
- Business Owner's Policy
- Commercial Umbrella Insurance
