What is MCS 150 form?

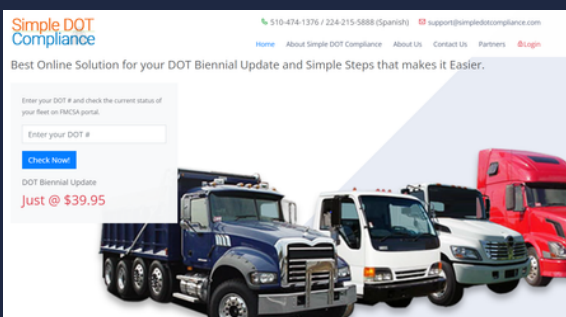

The image shows the top portion of the MCS-150 form. It includes the title 'FORM MCS-150' and 'Motor Carrier Identification Report (Application for USDOT Number)'. There are sections for 'REASON FOR FILING' with radio button options: 'New Application', 'Renewed Update or Changes', 'Out of Business Notification', and 'Reapplication (after revocation of new entrant)'. Below this are fields for 'LEGAL BUSINESS NAME', 'DOING BUSINESS AS NAME', and 'PRINCIPAL PLACE OF BUSINESS' with sub-fields for street address, city, state/province, zip code, and country.

Trucking companies must update their MCS-150 forms correctly to ensure the Federal Motor Carrier Safety Administration has the right information to tally safety scores based on their compliance, safety, accountability measurement system.

Every two years, or biennially, the information associated with the Dot number must be updated. That's done by filing an updated MCS-150 form. This form gives the government the most current information on your fleet and your company. It ensures that the data available is current and accurate. Simple DotCompliance is a web-based application, Provides two different ways to submit the application.

Based on the Filing option, the user can able to do a Biennial update for a low fee of \$ 39.95

If companies don't update the MCS-150 form, the USDOT number will be deactivated and could be faced with a \$1,000 fee per day up to \$10,000.
