

COLOURVU SECURITY CCTV SYSTEMS

By Hikvision & Dahua

1 CCTV

Hikvision's industry-leading ColorVu technology captures high-quality, full-color video 24/7 so your security staff can protect people and property at night with the same sharp rendering as in daylight..

ColorVu

2 HIKVISION

Active alignment technology Guarantees focusing performance in the mass production of ultra HD ColorVu-enabled cameras, providing good quality control.

3 DAHUA

With constant improvements in software and hardware, the new generation of full-color technology is now equipped with dual-sensor structure and software optimization.

4 COLOUR

It can output high-quality color images even when the white light is off which greatly reduces light pollution.

IF you would like to book an installation then just contact the [CCTV Installation Engineers](#) at Colour Vu installation services.
