HOUSE VASTU FOR SEPTIC TANK VEDIC ASTROLOGY

If you plan to install a septic tank in your home, then you should know about the <u>Vastu for septic</u> <u>tank</u>, which can help you welcome happiness in your home.

As per Vedic Astrology, the Northwest direction is the best for installing the Septic tank. It is totally different from Vastu for home.

From Dr. Vinay Bajrangi, you can get information on both aspects. He knows that a <u>south-facing house</u> could be better, so he always recommends avoiding buying or creating a house facing south.

If you already buy this house, then he can help you with some Vedic remedies or some minor adjustments in your home. Visit his **website** for more information.
