

HOW TO PLAY 8 BALL POOL ON 3PLUS GAMES

First, to start striking in with 3Plus 8 Ball Pool, download the 3Plus app by visiting our website www.3plusgames.com. Go ahead and install the application to enter into an experience of pure fun and excitement of Pool. Once you opt for your choices of contests, you will be connected to a random player to start the game. The one to play first in the game will be randomly decided and the objective of the two-player online game is to pot all seven balls of their designated type. Two types of balls – solids and stripes – are given to play.

The first shot determines which type of balls a player should pot. If a player pots two balls of the same kind in the first shot, then that will be their type. If the first shot pots two different types of balls, then it will go to the second ball. Once the ball type is determined, only thing the player want to focus on is pocketing the balls.

Pocketing the seven balls designated to them along with the final 8 balls will decide the winner of the game. Drag your cue stick in a circular motion to aim your ball, use the precision wheel to fine-tune your target, pull the cue inside the power meter to adjust the power of the shot, and then pull down the power meter to release it to take the shot.

The game is full of exciting features that make it even more enjoyable to play. There is an aim liner (precision wheel) that helps players adjust their aim to make precise shots, and there is also a chat option that enables players to communicate with each other using various emojis.

In addition to being a fun and challenging game, 8 Ball Pool is also a great way to connect with the people around you. It's a game that can be played anytime and anywhere, making it the perfect way to pass the time and have fun with friends and family.
