

IR QUARTZ HEATERS

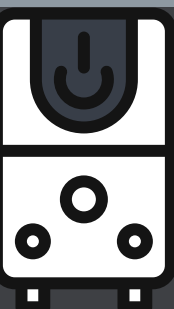

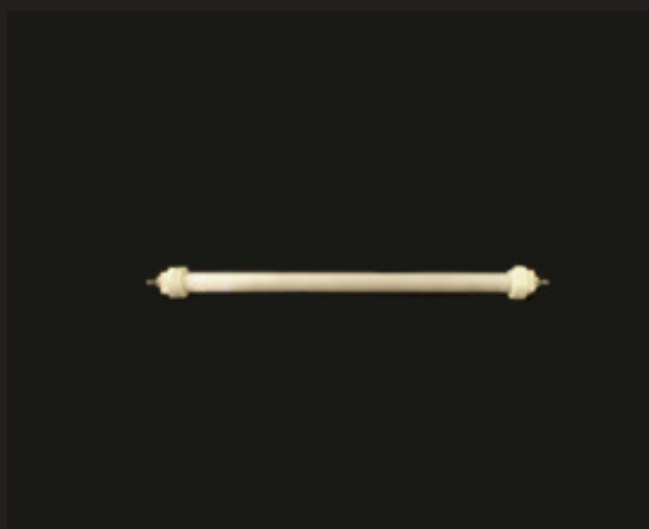

ABOUT

Translucent Quartz Tube with Spiral Heater Coil used for IR Heating. End Cap made from Steatite / Ceramic Material commonly used in Room Heating. This Heaters are popularly used in Room Heaters..

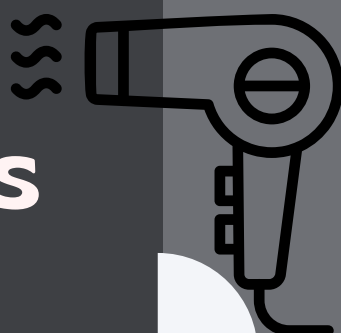

PRODUCT

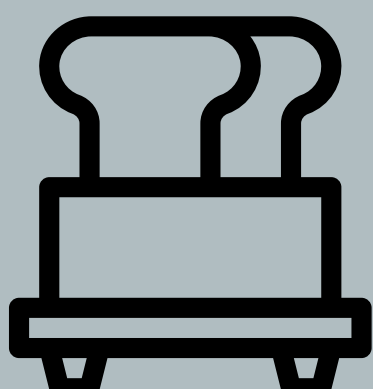

APPLICATIONS

- Indoor and outdoor heating
- Industrial processes
- Paint drying
- Printing industry
- Food processing

ADVANTAGES

- Instant heat
- Efficient energy conversion
- Targeted heating
- Resistant to thermal shock
- Long operational life
