## INTRODUCTION TO GARDENING SERVICES

Enhance the beauty of your outdoor space with professional gardening services. At Berkie Palms, we specialize in creating stunning gardens that reflect your unique style.

## WHY CHOOSE GARDENING SERVICES?

**Expertise:** Our trained professionals have extensive knowledge in plant care and landscaping, ensuring your garden thrives year-round.  
**Time-Saving:** Leave the hard work to us while you enjoy your free time without worrying about garden maintenance.  
**Healthier Plants:** Our skilled team provides tailored care that promotes vibrant, healthy plants and lush greenery.  
**Increased Property Value:** A well-maintained garden can significantly boost your property's value and curb appeal.

## WHOLESALE GROWER

- **QUEEN SAGO (CYCAS CIRCINALIS)**  
Queen Sago is native to India and is a slow growing cycad with graceful arching feathery leaves.
- **KING SAGO (CYCAS REVOLUTA)**  
Cycas Revoluta is native to Japan. It is slow growing and long-lived but can reach a height of 6m over a period of 100 years!
- **GIANT DIOON (DIOON SPINULOSUM)**  
Gum palm is a cycad native to Mexico. It has shiny stiff light green leaves that are upright in structure. Care with the spiny protrusions on the leaf edge.

## TROPICAL FOLIAGE PLANTS

- **BUXUS**  
Originating from Japan this dwarf variety makes excellent hedging and can be trained to a 1m x 1m hedge.
- **DRACAENA DRACO (DRAGON TREE)**  
The Dragon Tree is native to the Canary Islands & Tenerife and is a very long-lived tree.
- **DRACAENA MARGINATA**  
The Dragon Tree is native to the Canary Islands & Tenerife and is a very long-lived tree.
