Transform your File Management Needs in Salesforce
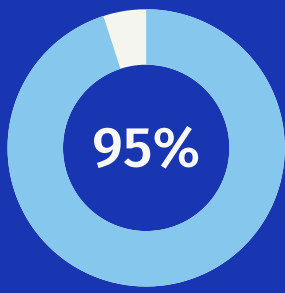

85%

95%

As per the recent survey we conducted, we have seen a 85% average customer file storage cost savings in Salesforce & 95% renewal rate for XfilesPro.

XfilesPro is an Advanced File Management & External Storage Collaboration Solution for Salesforce, that allows Salesforce customers automatically store their Salesforce files & attachments in any external storage to get rid of Salesforce file storage limitations.

How did we arrive at a 95% renewal rate? Let's break it down for you!
98% — **External Storage Integration & File Collaboration**

98% of the customers said they are happy with our product's ability to enable them to integrate their preferred external storage with Salesforce within a few clicks for file collaboration.

95% — **Centralised File Management System & Storage Management**

95% of the customers said they are pleased with the ability to access all their files centrally in Salesforce without hitting their file storage limits.

92% — **Next-gen Features with Additional Capabilities Beyond Storage Management**

92% of customers said that they are pleased with our product's top features and additional capabilities that help them tap over 3X ROI from their Salesforce files.
