

# 5 TYPES OF HOUSE PLANS

1

## Single-Story House Plans

As the name suggests, single-story house plans are designed to have all living spaces on one level. These plans are perfect for those who want to avoid stairs or have mobility issues.

2

## Two-Story House Plans

Two-story house plans feature two levels of living space. These plans are ideal for those who want to maximize their living space on a smaller lot size.

3

## Multi-Level House Plans

Multi-level house plans are similar to two-story plans, but with additional levels. These plans are perfect for those who want to create distinct living areas within their home.

4

## Modern House Plans

Modern house plans are characterized by their sleek, minimalist design. These plans are perfect for those who want a home that's both stylish and functional.

5

## Traditional House Plans

Traditional house plans are designed to be timeless and classic. These plans are perfect for those who want a home with a warm and inviting feel.
