FREEZE DRIED BANANA

Freeze-dried bananas are a crispy and crunchy snack made by removing moisture from fresh bananas through a process called freeze-drying.

FREEZE DRIED STRAWBERRY

Fresh strawberries are frozen and then placed in a vacuum chamber where the ice sublimates, removing moisture from the fruit. This process preserves the natural flavor, color.

FREEZE DRIED JACKFRUIT

Jackfruit is a tropical fruit known for its sweet flavor and unique texture. To make freeze-dried jackfruit, ripe jackfruit is cut into pieces and frozen.

FREEZE DRIED MINT

Freeze-dried mint is created using a similar process to other freeze-dried foods. Fresh mint leaves are harvested and quickly frozen to preserve their flavor and nutrients.
