Single Tech Stack
for Retial Management

1

Inventory

You can easily gather all stock reports like stock ageing, inventory turn, item costing and current on-hand inventory from the ERP.

2

Accounting

Most growing companies require accounting software that is user-friendly, scalable and secure. Ginesys Finance is the best choice

3

Stores

Ginesys One offers point-of-sale (POS) systems for both online and brick-and-mortar stores.

4

Sales

Ginesys One helps you manage the entire sales cycle, from order processing to fulfillment.

5

Data

Ginesys Retail Advanced Analytics business intelligence software is built for retail. It already has all the KPIs you need to analyze your business performance.

6

Warehousing

Ginesys One includes a warehouse management system (WMS) that helps you optimize warehouse operations.

7

Production

We can help you manage the production process, track production costs, and ensure that you have the materials you need to fulfill orders

8

Orders

Seamlessly manage and fulfill orders across channels to ensure accuracy, speed, and customer satisfaction

9

GST

EaseMyGST is a best-of-breed GST filing software and E-document (E-way bill and E-invoice) generation software in India.

10

Customers

Empower your business with deep insights into customer behavior, driving personalized experiences and loyalty.
